ilmen on Monday evening, etc. MERICO AND THE UNITED STATES-THE ENDING DIFFICULTY .- Our readers know that Lane's proclamation in relation to the Mesila Valley, proceeded to occupy that Valley, proceeded to occupy that Valley with an armed force of a thousand men, and that Gen. Garland has just started from Washington City for the point in question, instructed by the President of the United States to call, in case of necessity, upon the Governor of Texas for an adequate force to put an ead to the armed occupancy of the disputed territory by the Mexicans. The presumption is that Gen. Garland's instructions, in the event of his finding the Mesilla Valley occupied by Gov. Tries, are that be shall propose to that functionary to withdraw his forces, and that both parties leave the disputed jurisdiction to be settled by diplomacy. It is certain however that Gen. Garland will be required by his instructions to drive Trias off it the latter shall refuse to withdraw quietly; and, as we see it stated upon seemingly good authority that Santa Anna is determined to anstain Trias in his movement, and as it seems to be understood that the Mexican Dictator is not at all accesse to a war with the United States, we suppose that a bloody collision, resulting inevitably tawn, is fully to be expected. The Washington Course when, although a Democrat. seems who, although a Democrat, seems to be one of the most intelligent and careful of

able to give to the question, we cannot resist the conclusion that the Mesilla Valley, by the provisions of the treaty of Guadalupe Hidalgo, belongs to Mexico. The boundary line between the United States and Mexico is defined by the fifth article of the treaty. That article declares that the line shall commence in the Gulf of Mexico opposite the mouth of the Re Grande, and proceed thence up that river "to the point where avowedly for Freesofilism and Abolitionism throughout the Presidential canvass, and which are violently and avowedly for Freesofilism and Abolitionism still. This will be good news to a score or so of the fair Julia's ardent admirers in this city and to prohably as many more in each of the large cities of the Union. There is hope yet, young the librarial catholic spirit pervades the w southern and western boundary of New Mexico, and wishing to remove all difficulty in the way of the ascertainment of it, declared in the same article that "the southern and western limits of New Mexico, mentioned in this article, are those laid down in the map entitled 'Map of the down in the map entitled 'Map of the server of the serve We rather incline to the opinion however that the work of the new organ is to represent the Southern right by various acts of the Congress of said Republic, and constructed according to the best authorities—revised edition—published at New Southern ultras.
